

# Say hello to all new ECU360: powerful, faster, dynamic

From enabling faster and more convenient transactions, to improving the overall customer experience, digitalization is changing the way we conduct business.

As technology continues to revolutionize global logistics services, ECU Worldwide is stepping up its game with state-of-the-art digital platforms and technology. Customers too are happy to explore the tech side of shipping—in just a few clicks!

ECU Worldwide has made the All-New ECU360 the cornerstone of its digital play. An improved navigation system has enhanced the overall User Experience to accompany its cleaner, more modern and visually aesthetic User Interface. Several in-house teams are dedicated to continuously iterating the all new ECU360 based on customer and salesperson feedback. It is a result of all these efforts that sales team members and customers across the world are increasingly adopting the all new ECU360.

We've made some major upgrades to our platform and user experience that are going to make your days easier and more productive. We've completely revamped the UI so

that it's even easier to use, but with all the same great features you love about our platform.

We know how important it is for you to get things done quickly, so we made sure that every feature in this new version of ECU360 is designed around making your workflow as smooth and efficient as possible. You can count on us to always be here with the tools you need to succeed!

5 features of the All New ECU360 that will change how customers ship cargo in 2023.

## 1. An all-new way to find your next best quote on ECU360

With instant door to door quotes for over 50 countries, it's easy to find a freight quote that meets your needs. Simply switch between Best Value, Fastest Transit & Cheapest Price tabs from the Rate Offer List on ECU360 making it easy to pick the quote that's right for you.

## 2. Cargo Booking that's so easy, you can do it in 6 clicks

The all-new ECU360 takes the complex and overwhelming booking process and simplifies it. Based on your feedback, using our new Quick Load function, make a booking in as little as 6 clicks. Intuitively add additional services, highlight your Sailing to be eligible for Advancement, and more. Booking cargo has never been so serene.

## 3. Introducing the Industry's first Dynamic Dashboard

A dashboard that is designed to aide critical business decision making. Track everything from Booking request status, Cargo closing cut off date to Destination Delivery Status and more in one single dynamic dashboard.

## 4. Create your own Customised Client Quote on ECU360

With the ECU360's Client Quote Feature you will be able to Quote your customers directly from your ECU360 account. With the option of Customising the Quote with your own company logo along with options to add your own margin.

## 5. Quick Load Feature

The quick load feature is a great way to create your quote from an existing template, saved draft or recently performed quote. Just click the "Quick Load" icon in the toolbar and select the template you want to use. Then simply complete the fields you need to fill out.
